SECOND HOMES

You've decided to buy a retirement or holiday home in Victoria, and have a week's vacation time to check out what's on offer; problem is, you don't know which neighbourhood would be best and which café your new home should be closest to. Seems enough people have been in that situation, that Tourism Victoria has come up with a solution. The Victoria Relocation Vacation pairs participating developers with a tour expert to offer personalized — or self-guided — tours of specific neighbourhoods and developments to help potential buyers get a feel for the lifestyle and amenities of each one. Shopping, parks, golf, art and restaurants are just some of the features covered. For details, contact Kathy McAree — who currently runs an urban culinary walking tour of the city — at travelwithtaste.com or 250-385-1527.
